ASPCA® Veterinary Forensic Science Center Externship

The ASPCA is pleased to offer an opportunity for 3rd and 4th year veterinary students to spend two to four weeks at the ASPCA Veterinary Forensic Science Center (AVFSC) in Gainesville, Florida. Externs will be exposed to and develop skills in the basic concepts of forensic veterinary medicine. The extern may also have the chance to deploy nationally with us for a large-scale case, depending on our schedule.

Forensic Science Center Externs will:

- Complete learning modules and take part in case discussions
- Participate in intake of new cases and assist with forensic necropsies
- Practice photography skills
- Learn about evidence processing and crime scene investigations
- Participate in a ride-along with an animal control officer
- Complete a mock case from report to testimony
- And more!

Candidates must be third or fourth-year veterinary students in good academic standing at an AVMA accredited veterinary school. The ASPCA does not offer housing accommodations. Applications must be received at least two months prior to the requested start date. We do not accept externs the third week of November, the last two weeks of December, or the first week of January.
