

| Weight (Kgs) | Size of Re-Breathing Bag (L) | Weight (Lbs) |
|--------------|------------------------------|--------------|
| 1 - 5        | 0.5                          | 2 - 10       |
| 5 - 9        | 1                            | 11 - 20      |
| 10 - 16      | 2                            | 21 - 35      |
| 17 - 32      | 3                            | 36 - 70      |
| 33 - 45      | 4                            | 71 - 100     |
| 46 ≥         | 5                            | 101 ≥        |

These are estimates. The premise is to try to approximate bag size to lung size.
